Science Cycle A							Science Cycle B					
R/1	Seasonal Changes Charles Macintosh	Materials	Animals including humans Jane Goodall	States of matter	Plants Carl Peter Thunberg	Living things and their habitat	Seasonal Changes James Pollard Espy	Animals including humans Liz Bonnin	Plants	Living things and their habitat David Attenborough	Materials	States of matter
	Light		Rocks		Forces and magnets		Light		Rocks		Forces and magnets	
2	Material and Properties Alexander Parkes		Living things and their habitats Steve Backshall		Animals including humans	Plants Joseph Banks	Animals including humans	Plants Carolus Linnaeus	Living things and their habitats Tara Shine		Material and Properties Thomas Edison	
	Rocks		Electricity		Sound		Sound		Electricity		Rocks	

3/4	Animals and Humans	Forces, magnets and electricity Olga Gonzalez-Sanabria Isaac Newton	Rocks and states of matter Mary Anning	Plants	Light and Sound	Living things and their habitats Steve Backshall	Animals and Humans David Attenborough	Forces, magnets and electricity	Rocks and states of matter	Plants Carolus Linnaeus	Light and Sound Thomas Edison	Living things and their habitats
	Evolution and inheritance		Materials and their properties		Earths movements		Evolution and inheritance		Materials and their properties		Earths movements	
5/6	Animals including humans – heart and circulations Daniel Hale Williams	Light	Evolution and inheritance Charles Darwin	Living things and their habitats (classification)	Properties and states of matter	Electricity James Blyth	Earth and space Tim Peake and Stephen Hawking	Forces – air, water resistance and friction	Properties and changes	Animals including humans (humans developing to old age) Van Tulleken Brothers	Living things and their habitats (lifecycles) Chris Packham	Forces (levers, pulleys and mechanisms)
	Electricity		Rocks		Sound		Light		Plants		Seasonal changes
