Friday 23rd October - Non Uniform Day
Friday 23rd October - Last day of Autumn 1
Monday 2nd November - Autumn 2 starts
Monday 23rd November - Sunflower Class - STEAM Museum

This half term's value

FAITH

A huge thank you to all our families for your generous Harvest donations and for joining us at our Harvest Festival service. The children sang beautifully, and it was wonderful to see everyone come together to celebrate and give thanks. 🍂🌾💛

All donations have been given to Leominster Food Bank, helping to support local families and those in need within our community.

Your kindness and continued support are greatly appreciated!

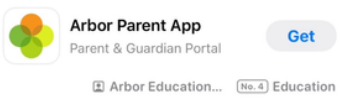

Bluebell Class

During this week's art lesson, Bluebell Class explored the use of light and dark in their drawings. We learnt how shading can be used to transform a simple 2D circle into a 3D sphere, making it look more realistic and rounded.

The children experimented with different shades and tones, developing their artistic skills and discovering how light and shadow can bring their artwork to life!

New Communication App

We are delighted to announce that we now have access to a new school communication and payment app, which will bring everything together in one convenient place.

The app will allow us to share important school messages, updates and reminders, as well as manage payments, trip permissions, clubs and other school-related information.

You should have received a link inviting you to download the Arbor Parent App. Please check your junk or spam folder, as the email may have been delivered there.

Please email the office if you have any problems

Little Seeds TOTS GROUP

The first 4 weeks of Little Seeds have been super busy!

We've been busy apple printing, exploring the outdoors, and noticing all the wonderful changes that come with the new season.

It's been lovely watching the children immersed into new experiences, explore their surroundings, and have lots of fun along the way!

We have 3 weeks left and lots planned, join us next week for farm week where we have a super cute fluffy bunny joining us plus lots of farm fun!

Niamh & Peyton

Joseph & Ernie

Sunflower Class

Sunflowers have had a busy start to the term.

In PSHE, we have been considering goals for the school year, alongside goals relating to our aspirations and dreams for the future.

Our Space learning in science lessons has prompted the children to ask significant questions. We discussed why it appears that the sun moves in the sky. The children shared their ideas, listened carefully to one another and constructed moving examples to justify their answers.

We researched further to discover who first explored the Earth's movement, too. This encouraged us to examine evidence closely and develop our understanding of the world beyond our planet.

In P.E., we have been practising hand-eye coordination. The children have worked hard to improve their focus, timing and control before applying these skills in tennis.

Attendance Award

Cake of the week

Zak - Bluebell Class

LOST & FOUND

Please remember to label uniform! With so many jumpers, cardigans and coats looking alike, a name label makes it much easier for lost items to find their way back to their owner. Please take a moment to check that all uniform and belongings are clearly named. Thank you! 😊
